

Rajan Shaky

Data Analyst | SQL | Python | Power BI

+91 63931 42003 | shakyrajan009@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Data Analyst with 6 months of internship experience building automated ETL pipelines, API-driven analytics systems, and interactive Power BI dashboards. Proficient in Python, PowerBI, and MySQL. Focused on turning raw data into clear, actionable insights. Seeking an entry-level Data Analyst role where analytical and automation skills can generate measurable impact.

WORK EXPERIENCE

ShapeMySkills (Ducat) – Data Analytics Intern

July 2024 – Dec 2024

- Extracted and analysed data REST APIs to surface job market and sales trends, delivering reporting outputs directly to stakeholders.
- Built 5+ Power BI dashboards for KPI tracking, reducing manual reporting effort and enabling self-serve insights for non-technical team members.
- Designed end-to-end data workflows using Python, SQL, and Power BI - from raw API ingestion to final visualisation.

PROJECTS

Live AQI Monitoring & Pollutant Analytics System

github.com/rajanshaky/live-aqi-analytics

- Built a real-time AQI system ingesting live pollutant data from public APIs via scheduled ETL pipelines (batch scripts + Windows Task Scheduler), eliminating manual data collection.
- Created multi-page Power BI dashboards with AQI trend lines, pollutant heat maps, and severity classification for environmental reporting.

Stack: Python, MySQL, Power BI, Pandas, REST APIs, ETL Automation

Job Market Pulse Analytics Pipeline

github.com/rajanshaky/job-market-pulse

- Analysed 1,100+ job listings via API extraction to identify top in-demand skills and geographic hiring concentrations across India.
- Delivered Power BI dashboards visualising hiring trends by role, city, and skill set for actionable job market intelligence.

Stack: Python, SQL, Power BI, Pandas, NumPy

Sales Performance Analytics Dashboard

github.com/rajanshaky/sales-analytic-dashboard

- Integrated API-driven sales data and built KPI dashboards that surfaced revenue concentration risks, enabling targeted business decisions.
- Used SQL for queries and pandas for data transformation and Power BI for interactive reporting across product lines and time periods.

Stack: SQL, Power BI, KPIs, API Integration

EDUCATION

IGNOU – Master of Computer Applications (MCA)

2024 – Present

University of Lucknow – Bachelor of Computer Applications (BCA), 78%

2020 – 2023

SKILLS

Programming	Python, SQL
Libraries	Pandas, NumPy, Matplotlib, Seaborn
Visualisation	Power BI, Excel
Tools	Git, Jupyter Notebook, VS Code, MySQL Workbench

CERTIFICATIONS

• Data Visualisation – TATA	Verified Certificate
• Data Analytics Job Simulation – Deloitte	Verified Certificate
• Python, SQL and Power BI for Data Analysis – ShapeMySkills	Verified Certificate
• SQL (Intermediate) – HackerRank	Verified Certificate
